SUMMARY

ML Engineer with 4 years of experience building deep learning pipelines and NLP systems. Passionate about LLMs and production-grade AI.

EXPERIENCE

Senior ML Engineer — DataCore AI, Hyderabad (2021–Present)

- Built NLP pipelines using TensorFlow and PyTorch for text classification tasks.
- Developed REST APIs using Django for serving ML models at scale.
- Used Pandas and NumPy for data preprocessing and feature engineering.
- Fine-tuned large language models (LLMs) including LLaMA and GPT for domain-specific tasks.
- Implemented deep learning architectures for sequence-to-sequence modelling.

ML Engineer — AnalyticaHub, Hyderabad (2020–2021)

- Designed machine learning models for churn prediction and recommendation systems.
- Worked with PyTorch to build and train neural networks.

EDUCATION

B.Tech Computer Science — JNTU Hyderabad, 2020

SKILLS

Python, Django, TensorFlow, PyTorch, NLP, Deep Learning, Machine Learning, Pandas, NumPy, LLMs, Scikit-learn, REST APIs, Git, Docker
